PROFESSIONAL SUMMARY

Software Engineer with experience in Python, Data Structures, and full-stack web development. Skilled in building web applications and working on AI-based projects. Looking to apply my problem-solving skills and technical knowledge in a challenging role.

TECHNICAL SKILLS

Languages: Python

Web Technologies: HTML5, CSS3, JavaScript (ES6+), React.js, Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL

Tools & Technologies: Git, GitHub

Concepts: Data Structures & Algorithms, Problem Solving, Debugging, Basics of DBMS

EDUCATION

Bachelor of Technology in Computer Science and Engineering – IOT

Yeshwantrao Chavan College of Engineering (YCCE), Nagpur 2026

Higher Secondary Certificate (HSC) , Science

L.D.M.T. Jr. College, Yavatmal 2022

Secondary School Certificate (SSC)

Wonderland High School, Nagpur 2020

WORK EXPERIENCE

Web Technology Intern | Monikwave® Creatives Pvt. Ltd., Nagpur | Jan 2026 - Present

- Built a full-stack video conferencing web application using MongoDB, Express.js, React.js, and Node.js
- Implemented real-time audio/video communication features supporting multiple users in a single session.
- Created responsive and reusable frontend components to improve UI consistency across different devices.
- Collaborated in an Agile team using GitHub for version control and sprint-based development.

PROJECTS

AI Chat Application | *React.js, Node.js, Express.js, OpenAI API* | <https://github.com/Sahil071803/Ai-Chat-Bot-Application.git>

- Developed an AI-powered chat application with real-time messaging using MERN stack.
- Integrated external AI APIs to process user queries and return contextual responses.
- Managed conversation state and chat persistence using local storage and backend APIs.
- Enhanced UI/UX with dynamic components and smooth interactions for better user engagement.

AI Notes Summarizer | *React.js, Node.js, Express.js, LLM APIs* | <https://github.com/Sahil071803/mindforge-ai-notes-summarizer.git>

- Building a full-stack AI-powered application to generate summaries and MCQs from user input.
- Integrating LLM APIs for extracting key insights and generating interview-focused questions.
- Developing REST APIs and interactive UI for real-time response rendering.

Task Manager | *React, Node.js, Express.js, MongoDB, JavaScript*

- Built a full-stack task manager with CRUD operations and a responsive UI.
- Built with Node.js and Express.js for smooth backend–frontend communication.
- Designed a dynamic React-based UI for real-time task updates and a smooth user experience.
- Used MongoDB with optimised queries and added task prioritisation, status tracking, and authentication.

CERTIFICATIONS & ACHIEVEMENTS

- Frontend Battle 2.0 Hackathon - IIT Bhubaneswar (WebnD).
- Oracle AI Foundation Certificate - Oracle University.
- IBM PY0101EN: Python 101 for Data Science - Cognitive Class.
